

## A&R. Survive & Thrive

### Insolvency and Recovery Services

Businesses and individuals faced with insolvency need clear, practical and accurate legal advice to minimise losses and turn a negative situation around fast.

We can help. Our insolvency specialists take time to understand each situation and provide independent advice to both individuals and businesses whose fortunes have been affected by the economic downturn.

#### Helping Business Owners

We provide impartial advice on the various options open to your business

- Formal insolvency or rescue procedure
- Debt recovery
- Directors' liabilities
- Advice on Company Director Disqualification Proceedings
- Defending claims from Liquidators
- Buying your business back from a Liquidator or Administrator

#### Benefits

The earlier you seek advice the better. With you we seek to

- Minimise, or avoid, directors' personal liabilities
- Minimise creditor losses - which can mean retaining good relations with suppliers and other creditors
- Save the business (or part of it) as a 'going concern'

#### Helping Individuals

If your credit levels have grown too high to manage - you need expert advice and guidance. Formal bankruptcy may be the best choice, but there are other ways through the situation which may be better for you (and for your creditors).

In the event that your employer has become insolvent, we can also advise you on the impact this will have on monies owing to you.

For individuals, we work hard to identify the best way to deal with your financial difficulties. A little time and money spent now in securing sound legal advice can save distress and cost later.

#### Benefits

We provide support and guidance at a critical time. Our skill and experience of these situations means we can quickly identify what is best for you and make a plan, enabling you to get on with your life and look to the future.
